BULK GARDEN SEED PROFITABLE

The Keystone

BULK GARDEN SEED MERCHANDISER

Display rack is strongly constructed of steel, finished in glossy black enamel with an attractive green Keystone at the top. Shelves provide space for 27 jars. The rack is 38½ inches high by 41 inches wide and can be used on either floor or counter. The jars are 3½ inches square by 9½ inches tall and hold about 2 pounds of most seeds. A simple chart showing volume per ounce and per pound of various seeds, together with the measuring glass, makes small sales easily handled.

With the increased interest in gardening everywhere, bulk garden seed has become a more and more profitable line for dealers. Not only does it show a good profit and a good volume but at the same time you are benefiting your customers and attracting new customers. Fresh, high germinating Keystone bulk garden seed will cost them much less than the same quantities of packet seeds.

CONVENIENT METHOD OF SELLING

A compact bulk seed department is provided by using the Keystone bulk garden seed merchandiser, pictured herewith. Sales are made quickly and easily by using the measuring glass furnished free with the display outfit. Bulkier seeds, such as beans, peas, and corn may be handled in galvanized buckets, stone jars or the original bags. A good initial stock of garden seed may be had for as little as \$35.00 plus the \$13.75 for complete bulk merchandiser and jars.
